~Frequency Stickers ~

Sleep

Pain/Healing

Calm

Hi, my name is Tracy and my passion has been guided toward RIFE, a frequency driven wellness program that delivers support to pain reduction, skin improvement, hair improvement, and anxiety management. Through my research and work, I have learned that this is also possible for our greatest loves - our pets!

The following frequencies are available for dogs and cats. Buy two regular frequency stickers for \$40 and get a FREE dog sticker for yourself or to donate to a vet or shelter for those that want to help improve the lives and well-being of their fur babies and others.

Calm – perfect for the pet that is

- *Home alone.
- *Afraid of thunder or fireworks
- *Visiting the Vet, or in a kennel,
- *At the Humane Society, Boarding, or Groomer
- *In a shelter or foster home
- *Traveling

Healing/Pain – perfect for the pet who is

- *Feeling under the weather
- *In pain
- *Healing from an injury

Sleep – perfect for the pet that is too anxious to sleep

Contraindications

Pregnancy

Pacemaker

What is a Frequency Imprinted Sticker?

Everything around you has a frequency!! Just like a CD has music imprinted on it, I can now imprint frequencies into a Holographic sticker and your body can benefit from the frequencies. Various frequencies from sleep, calm, and healing/pain frequencies, can be imprinted onto these stickers. Just place these stickers on the dog's collar, water bowl or bed. For example, if you wish to imprint water with your frequency sticker, simply stick the holographic sticker to the outside of a water bowl. Leave the drink for a while for it to absorb the frequency, then when the dog/animal drinks it, they will absorb the frequency.

How do you verify your stickers are still active?

Pour distilled water into 2 different glasses. Place 1 of the glasses of distilled water on top of the imprinted sticker. Keep glasses as far away from each other as possible. Freeze both glasses of water. Once frozen, the plain water should be foggy and chaotic and the sample with the holographic frequency sticker should be crystal clear with the visible frequency. Stickers that are taken care of have been known to last as long as a year.

How do you take care of your sticker?

1. Avoid direct sunlight on the sticker.
2. Keep away from magnets.
3. Keep out of water.
1. Don't let your sticker get scratched. Wrap in foil when traveling.
2. Stickers last as long as the sticker stays shiny and in good shape.
3. The easiest way to use your sticker is to leave it in the little baggie and tape it inside your dog's collar. You can also stick the bee inside the baggie to one of the holographic round stickers and then stick the round sticker to the collar. The holographic sticker protects it from the sunlight. You can also place the sticker under a bed if your pet lays arjuns a lot.

Disclaimer: These stickers are not approved by the FDA and are for educational purposes only, and are not intended to replace the medical advice, diagnosis, or recommendations of your vet. If Aphrodite Skin Solutions & Wellness makes no claim that these stickers will cure disease.

If your pet has a pacemaker, or could be pregnant, please consult a vet prior to using.
